

President, University of Gyeongnam Namhae

Diligence and Creativity

2018 Remarks to the visitors As delivered

University of Gyeongnam Namhae was founded in 1996, and is the first university founded by Gyeongnam Provincial administration in South Korea.

Our university was founded by the local government administration to create capable leaders for our society, and to provide the most capable work force in the industrial, engineering and administration fields.

Our university was founded to effectively cope with rapidly changing future trends, and we also have many academic programs to create industry work-oriented professionals with our new academic system known as the "life time learning system." Most alumni are contacted by our school after graduation in order to offer them practical assistance.

Today, we have many departments and continuing programs for the students and local residents. In addition, we also have many social work activities and other academic events for disadvantaged people in the local area. In addition, we have contacted many universities around the world to create an academic network and a great number of academic programs including the following: overseas internship, student exchange, language training, conferences etc.

We will keep trying to be the best institution to create the best work force for our rapidly changing society with new technology and development strategies.

Hyconmyeong Jo,
8th president of
University of Gyeongnam Namhae

About the University of Gyeongnam Namhae

at a glance

Establishment

University of Gyeongnam Namhae is one of the oldest provincial institutions of higher education in the South Gyeongsang Province in South Korea, established in 1996 by vote of the Korean provincial administration.

Honors

Gyeongnam Provincial Namhae College gained the best reputation in the evaluation of university restructuring. Its goal was to seek the most qualitative education and its curriculum.

Faculties, Schools, and Institutes

University of Gyeongnam Namhae is made up of 9 principal academic units – more than 60 faculties and some academically affiliated institutes for the students' advanced study.

Undergraduate Cost and Financial Aid

Most students receive scholarship aid, and the average grant this year will be a full scholarship. Since college foundation, College's investment in financial aid has climbed.

During the 2014–2015 academic years, students from families with certain incomes, and with assets typical for that income level, will generally pay nothing toward the cost of attending our college. Significant financial aid is also available for families above those income ranges. The total 2015–2016 cost of attending our college without financial aid is USD \$2,666.00 for tuition, board and fees combined.

University Professors

The title of University Professor was created in 1996 to honor individuals whose ground breaking work crosses the boundaries of multiple disciplines, allowing them to pursue research at any of our college schools.

College President

Mr. Duksoo Hong is the 7th president of University of Gyeongnam Namhae, and he served as public official for South Gyeongsang Province Government for more than 30 years.

Mission Statement

University of Gyeongnam Namhae (comprising the undergraduate college, other academic bodies, research centers and affiliated institutions) does not have a formal mission statement. However, the mission of the College is to educate the potential leaders for current society. We do this through our commitment to the transformative power of a liberal arts and sciences education.

University of Gyeongnam Namhae Campaign

University of Gyeongnam Namhae is designed to embrace the future and to ensure university's leadership as it approaches its current century of education and inquiry in the pursuit of enduring truth.

Department of Hotel Culinary Art & Bakery

Cradle for nurturing global culinary arts specialized human resources!

Nurturing professional and creative cooks

Our department as the most popular career and major nationwide is targeting nurturing "global culinary professionals" opted for food industrial fields, who are going to play a pivotal role in the development of local and national industry in keeping pace with internationalization of food culture by nurturing practical professional technicians necessary for hotels and the culinary fields of domestic and foreign food service industry and baking/pastry throughout foreign language and IT education, learning culinary arts with variety and characteristic, realistic practical field training.

Our college was selected as 'New University for Regional Innovation(NURI)' to conduct the operation of 'Customized Education Program for Nurturing Human Resources' opted for food industry field and the 'Building-up of Employment Fostering System' from 2004 to 2009.

We were selected as the 'Locally based industry promotion project' supervised by Ministry of Knowledge and Economy to get a patent for the development of 'functional black garlic wine' from 2006 to 2009 as well. In addition to this, we have been awarded top-class every year at various nationwide cooking contest/competition. In particular, we were awarded Gold medal nationwide at 'College Korean Food Dream Competition' in July of 2015.

Professor Kwon and two other students altogether as Korean Food Overseas PR Delegation attended and showed off their personally designed Korean cuisine menus to 50 ambassador-level diplomats of all countries of the world at Korean food banquet of the Korean mission to the United Nations of New York in November of 2015.

We are going to nurture the best global chef all equipped with excellent talent and character beyond 20 years of challenge and achievement.

Chairman Gweon Oh-cheon, Ph.D.
Master Craftsman Cook of Korea
Dean of the department of Hotel Culinary Arts and Bakery

It has been already 20 years since starting our department. It is not common to spot chefs with upright character, throwing heart and soul into their cooking in everything, cooking even a sense of moving with earnest mind even if anybody can be the best. This could be possible because we had efforts of all professors along with the efforts of our students. We are supposed to receive steady government grant later for 3 years without any limit in fixed number of students

and extra college assessment since we were selected as the top class 'Self-improvement College' at the 2018 College Diagnosis of fundamental Capacity conducted by Ministry of Education. In accordance with this, our department is going to do our best with a sense of responsibility and duty to become the department nurturing global chefs of K-food Korean Wave, centering on Foodtainment, and cooking tasty and pleasant world.
